# Deliberative Process / Ex. 5

Chris knows the fees program pretty well so I don't think he'd have any trouble responding to a verbal question, but we could prepare an if-asked Q/A for him if you think he needs it.

## Deliberative Process / Ex. 5

EPA collects fees from manufacturers to recover the cost of administering our emission control programs. These fees are submitted to the US Treasury and the US Congress in turn allocates funds to EPA for the Agency to implement its programs. While this process doesn't ensure a perfect correlation between the fees EPA collects and the cost to run our compliance programs, in general the collected fees and cost to run the program are approximately the same.

Hi Jim,

## Deliberative Process / Ex. 5

I would suggest looping in Mark Kataoka and David Orlin from OGC. Similarly, I would suggest including Evan Belser and Greg Orehowsky from OECA.

Thanks,

Byron

Hey Janet,

I hope you are doing well. Just checking in on the status of the first draft of our responses to the questions from the European Parliament committee. What's the latest there?

On another note, I went ahead and pulled together a first draft of Chris' testimony based on previous conversations with him. He is looking it over now as a starting point. I have attached it here.

Let me know about the Qs & As.

Thanks,  
Jim
